October 2020

Dear Students and Families of the Class of 2021,

Senior year has arrived! Before high school seniors prepare to walk across the stage to receive a diploma, remember it is never too early to consider opportunities beyond high school. We urge students to work towards their potential academically and professionally by staying active in extracurricular activities, classwork, and career research.

I Am College Bound/I Applied (Virtual) College Application Day
Date/Time: Tuesday November 17th, 2020 - Periods 1-4

Since 2014, NH's "I Am College Bound/I Applied" initiative has helped more than 4,850 students file over 11,500 college applications. The program has grown from six NH public high schools to 54 for 2020. And our high school is one of them!

Our virtual college application day is scheduled for **Tuesday November 17th, 2020**. Encourage your student to participate and receive awesome assistance from knowledgeable volunteers – like College Admission Representatives, School Counselors, and The NHHEAF Network's Center for College Planning Counselors – as they submit college and program applications. Students can ask questions, receive essay feedback, and have their college application(s) reviewed before submission.

I Am College Bound/I Applied brings high school seniors together to celebrate the incredible achievement of applying to college! Additionally, participating students can apply **FREE** to ALL NH colleges and universities during this event; students are also entered to win a \$500 college scholarship towards the college or program of their choice.

As this is a virtual event this year, we require students register with your school counseling office so we can accommodate all students. Please save your spot by registering at [I Applied Day](#).

Questions? Please contact your student's School Counselor or event Site Coordinator **Mary Carper, School Counselor**.

FAFSA Note:

Students applying to college may now file the [Free Application for Federal Student Aid](#) (FAFSA) for the 2021 – 2022 academic year; this is the first step toward receiving federal aid. Students may submit the FAFSA before they send college applications, *but* they will need to have at least one school on their college list to file. Changes can be made to the school selection portion of the FAFSA until the college's deadline, so if your student's college list grows in the next few weeks, there is the option to add (or remove) colleges in the future. Looking for help in filing this critical form? The Center for College Planning offers [free](#), 60-minute appointments to help families file the FAFSA, which helps to make college more affordable. To schedule an appointment, contact the Center for College Planning as noted above.

We look forward to working with your student!

Sincerely,
Mary Carper
